EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the specification:

Page 5, rewrite paragraph [0040] as follows:

[0040] ~~Figure 5 is~~ Figures 5a-5d are a diagram showing the steps in the heat-shrinking method implemented by the machine shown in the drawings, starting from placing a unit article with a sleeve engaged on said article and going to removal of said article coated in its shrunk-on sleeve; and

In the claims:

Rewrite claims 10 and 19 as follows:

10. A heat-shrink machine for heat-shrinking sleeves made from a film of heat-shrink plastic material onto an article, the machine comprising:

a stationary machine structure;

Art Unit: 3721

a shrinkage chamber having a temperature range, the shrinkage chamber being mounted to the stationary machine structure;

a pre-heater chamber surmounting the shrinkage chamber;

an article support mounted to move at a travel speed relative to the stationary structure along a vertical axis between a low position for installing or removing the article, and a high position in which the article is fully contained in the pre-heater chamber for a period of time; and

a controller to control the temperature range of the shrinkage chamber, the travel speed of the support, and the period of time.

19. A machine according to claim 16, including an elevator secured to the article support which is mounted to be capable also of revolving about its own central vertical axis and to a first motor for causing the article support to revolve at a rotational speed around the vertical axis, and a second motor actuating said the elevator in order to cause the article support to move vertically axially, and wherein the controller of the machine is connected to the first and second motors and to the hot air blower assembly associated with the annular
